event

With all the service mentioned above we
enhance the impact of technology

And furthermore...

TU/e will involve societal stakeholders in technological research
and stimulate engineers to have an open eye for the needs of
society and industry.

Living labs

Where Science
Meets Business

Engage with society and reflect on the ways in which technology
influences our lives.

Student teams

Explore new ways to engage with our ecosystem: connecting
students, research talent and R&D professionals and translating
new knowledge into solutions for society.

Innovation
Academy

Eindhoven
Engine

Looking for cashflows which make better and more research possible

Careers for top talent

- startups
- spin-offs
- collaborations with industry
